

A CERTIFICATE TRAINING PROGRAM FOR PHARMACISTS

Cedarville University School of Pharmacy

Friday, July 19, 2013 8am-5pm

Health Sciences Center, Room 205

Delivering Medication Therapy Management Services is an innovative and interactive training program that explores the pharmacist's role in providing MTM services to patients. This activity teaches pharmacists the essential skills necessary to become a successful MTM practitioner. The certificate training program will enhance pharmacists' clinical expertise in evaluating complicated medication regimens, identifying medication-related problems, and making recommendations to patients, caregivers, and health care professionals.

GOALS OF THIS PRACTICE-BASED PROGRAM:

- ✓ Advance public health and patient care through improved medication use.
- ✓ Provide training to enhance pharmacists' ability to effectively provide MTM services.
- ✓ Motivate increased numbers of pharmacists to establish MTM services.
- ✓ Communicate benchmark practices for providing MTM services.

Delivering Medication Therapy Management Services certificate training program is conducted in three parts – self-study activity and pre-seminar exercise; live interactive seminar; post-seminar exercise. A Certificate of Achievement will be awarded to participants who successfully complete all program components, including an evaluation form.

For a complete list of learning objectives and all APHA accreditation information and policies, please visit APHA's website, www.pharmacist.com/education
